Identifying Alberta's Best Schools: 2010-2012

North Central Alberta

Aspen View Regional Division No. 19

Black Gold Regional Division No. 18

Buffalo Trail Public Schools Regional Division No. 28

East Central Alberta Catholic Separate Schools Regional Division No. 16

Elk Island Catholic Separate Regional Division No. 41

Elk Island Public Schools Regional Division No. 14

Evergreen Catholic Separate Regional Division No. 2

Grande Yellowhead Public School Division No. 77

Greater St. Albert Roman Catholic Separate School District No. 734

Lakeland Roman Catholic Separate School District No. 150

Living Waters Catholic Regional Division No. 42

Northern Gateway Regional Division No. 10

Northern Lights School Division No. 69

Parkland School Division No. 70

Pembina Hills Regional Division No. 7

St. Albert Public School District No. 5565

St. Paul Education Regional Division No. 1

St. Thomas Aquinas Roman Catholic Separate Regional Division No. 38

Sturgeon School Division No. 24

How do parents, teachers, taxpayers and school administrators know if children are attending a good school? A school cannot be considered a success just because a high percentage of its students are successful; nor can schools be meaningfully ranked on that basis. A school with strong standardized test results could simply be a school where students come from more advantaged backgrounds.

But not all variation in school results can be explained by variation in social and economic characteristics. By controlling for characteristics of schools' students and the communities they come from, we present a measure of success for each school when compared with similar schools.

The schools are organized alphabetically by school board and then by school name.

Description of Variables

Students: The number of students in grade 3, grade 6 or grade 9 who were eligible to take the Provincial Achievement Test (PAT) (three year total).

Adjusted Excellent Rate: The percentage of all students who achieve the "standard of excellence." The adjusted excellent rate is the difference between the school's excellent rate and the provincial average excellent rate on each test. A positive value indicates the school has a higher excellent rate than the provincial average; a negative value indicates the opposite. Outcomes are averaged over the assessments written at a school, with each assessment weighted equally.

Predicted Adjusted Excellent Rate: The excellent rate that a given school would be expected to attain given the performance of other schools in similar socio-economic environments, minus the provincial average excellent rate.

Percentile: A performance measure adjusted for observable social and economic characteristics and variation in the average score on assessments. Percentiles go from 0 to 100. Schools that score exactly as predicted get a percentile of 50.

The predicted adjusted excellent rate is subtracted from the actual adjusted excellent rate and expressed as a percentile. A percentile value of 90 indicates that this school's outcome is higher than 90 percent of other similar schools in the province. A value of 10 indicates that this school's result is higher than only 10 percent of other similar schools or, equivalently, that 90 percent of similar schools score better than this school. A similar school has a set of social and economic indicators that predict the same predicted adjusted excellent rate. Small differences, for example one or five unit differences in percentile ratings, are not of any interest. It is the large gaps between the 90th percentile schools and the 10th percentile schools that are of the most interest.

A note on missing values for some schools:

Some schools' performance indicators are missing, for three reasons. First, the results in a grade in a year at a school are suppressed for privacy reasons when there are less than 15 students in the grade. Second, the predicted and percentile indicators for a given school and grade are shown only if outcomes for at least 45

students in total were available. Johnson (2005) explains why it is important to compare schools using a large number of individual students. Third, I do not include students who write certain French language assessments or Knowledge and Employability (KAE) assessments.

The schools are organized alphabetically by school board and then by school name.
